From the Rural American.

HOW TO MAKE GOOD FARMERS.

This subject has often been discussed.—Various opinions have been offered, some of which are very good, others quite inferior. I propose to make a few suggestions for the benefit of the readers of the RURAL.

There are thousands of farmers in the world who seem to think nothing but physical strength is requisite to make good farmers. With such men farming is neither more nor less than simple coarse drudgery, and yet there is no human pursuit so intimately connected with every department of science. It is this erroneous and most pernicious impression which has degraded agricultural pursuits in the estimation of so many, and has driven thousands of intelligent and promising young men from their homes in the country to the cities and to ruin. When will farmers rise to the true dignity of their calling? A boy is apprenticed for years to enable him to acquire sufficient skill to make a coat, a shoe, or a hat, but farmers are supposed to be born such. We very seldom meet a man, whatever his early education may have been, who does not feel himself perfectly competent to manage a farm. It requires years of preparatory study to fit a young man for any of what are denominated the learned professions. To become a lawyer, a physician or a clergyman, he must devote four or five years in the colleges, passing over his books and listening to lectures. All this is well enough. In fact it is indispensably necessary; but anything in the shape of a human being, who has sufficient physical strength to enable him to hold a plane, wield a scythe, or harness a horse, is considered enough for a farmer. Why is this? Can it be supposed when rigidly considered, that such men, without mental culture, can make "the principles and discoveries of some of the most profound and complex of human sciences, bear upon the diversified and multitudinous practices of agriculture?" I would not be understood as supposing this applies to all farmers. Fortunately for our country, there are, among the cultivators of the soil, a very large number of very sensible and intelligent men who would honor any profession. My remarks are designed to have reference only to the too generally prevalent opinion that agricultural pursuits demand nought but broad shoulders and strong arms.

This error, I am glad to know, is now being rapidly dissipated. For this blessing, we owe a debt of gratitude to the teachings of agricultural journals, agricultural and horticultural societies, and to the influence of valuable agricultural books. The tillers of the earth are beginning to estimate, as they should, the immensely important position which is held by agriculture in its relation to all other human pursuits. Agricultural teaching is beginning to assume its proper place in our institutions of learning. Farmers are awakening to the fact that an intelligent mind is a far better director of a strong arm than a mind upon which the light of education has not shed its beneficient rays. They are beginning to appreciate the great importance of familiarizing themselves with the *science* of agriculture as well as with the mere art, for it is a science. They are beginning to realize the necessity of understanding the *principles* which underlie the science as well as the *practice*. These are encouraging truths. It gives bright hopes for the future of our country. It is to be hoped the day is not very far distant when all our farming interests will be greatly improved. We may yet possibly see the time when *every* department of the science will be sufficiently understood and the necessity of each being sufficiently studied to make all our farmers better acquainted with the business so that it may be conducted with infinitely more ease and success. Let the importance of respecting the science and make it a study, then, be encouraged. The good work has begun. By all means let it be pressed vigorously on.—To every farmer I would urge the vast importance of making handsome outlays of their means in order to provide their children with the necessary books and means of instruction to store their minds with valuable agricultural information. If this course were pursued, farmers' sons would become intelligent agriculturalists and useful citizens.

FARMER

DEMOCRATIC AND RADICAL PRINCIPLES.

As charity begins at home, so the Radical party, instead of prezzing their brains and wits over Democrat c unity in diversity, had better look at home, and into their own mirrors. They will there see a motley crew face to face. High tariff men, low tariff men, and *free traders*.—hard money men, legal-tender men, and National Bank men,—those in favor of a resumption of specie payments, and those opposed to resumption;—a President in favor of Walker, of Virginia, and half his Cabinet in favor of Wells, of Virginia,—a divided Reconstruction *over politics* in Tennessee, Mississippi and Texas,—some for Hamilton, some for Davis, some for Dent, and some for anybody and everybody else. General Grant makes a decision based on law for Georgia, which he hesitates to make for Virginia. Gen. Canby is permitted to make one decision for South Carolina, and just its opposite for Virginia.

Look again into the mirror and you will see the party who's motto is peace, prolonging discord among States and people who would rejoice over peace; and look again, and you will see this same party permitting American citizens to be insulted, without even attempted redress, in Cuba and Ireland. Look again, and the spirit of discord rolls among not only the members of the Cabinet, but among the great body of camp followers. There are two quarrelsome Radical partisan Committees in this city, and another is organizing in hostility to the other two, on account of the open corruption, dishonesty and selfishness which are charged upon them. The U. S. Marshal and Collector are insulted in their own offices by a band of office seekers, more greedy for place than a miser for gold.—There is a Fenton Radical party, a Morgan Radical party, and a Radical party between the two, all hungry for place and power.—There is a party with Butler at its head, already threatening the President with Congressional interference, to end in attempted impeachment, if he dares to construe the laws otherwise than as Butler interprets those laws. Republicans in New England are divided upon Prohibition, in Ohio and the West upon Negro Suffrage, in the South upon the hordes of carpet-baggers and scallawags, on the Pacific over Chinese immigration, and in Utah upon Polygamy, that "twin relic of barbarism," which was to have been wiped out with slavery. And yet Radical journals like the *Post* have the moral courage to talk about divisions in the Democratic party! Look at home, gentlemen. See yourselves even as you are seen, and don't talk about divisions in the Democratic party when your only great bond of union is in the cohesive power of public plunder.—*N. Y. Express.*

TENNESSEE CONSERVATIVE.

At this rate the whole South will soon become as reliably Democratic as Kentucky and New York city. First Virginia, then Alabama, now Tennessee. Victories are as frequent as contests, and nominations are equivalent to elections. It has only needed a maximum of Radical folly and tyranny and a minimum of Democratic wisdom and liberality to assure this. Let no man be deceived. Though Walker and Senter sailed in under the paradoxical name of Conservative Republicans, the cognomen deludes no one. Democrats supported, elected, and will advise them. Decency in their section necessitates Democracy, and the line between them and the Radical party is as marked as the difference between any conceivable opposites—between Mr. Greeley and free trade, for instance. And Tennessee rightly leads off. The first to be reconstructed, she is the earliest of the Southern States to repudiate the disfranchisers and peddlers in savage suffrage who have brought her credit to ruin and given her history the only blot it wears. The carpet-baggers and scallawags may as well emigrate or die. Their day is done. Tennesseans hereafter will rule Tennessee. The State belongs to herself. We congratulate the commonwealth. We congratulate the country. We congratulate the progressive, indomitable Democracy. Now for the abolition of all disabilities. Now for an honest, aggressive State administration.—Now for a true man in the Senate of the United States, be he ex-President Andrew Johnson or any other capable statesman, of whom the locality has no lack. This is no doubtful triumph. Congress dare not even usurp the supervision of the righteous verdict. Tennessee, which re-entered the Union in humiliation, at last retaliates upon the conspirators who have played fast and loose with her honor. A mighty *present* struggle has saved the State till time shall end. Future success will be easy, and the Democracy are once more free and victorious in the home of Jackson and the hearts that follow his counsels.—*N. Y. World.*

PRAIRIE DOGS.

INTERESTING FACTS IN REGARD TO THE "CRITTERS."

The great prairie dog city is situated on both sides of this railroad, three miles west of Potter Station, and 436 miles west of Omaha. This city is so named from a succession of sand hills, a foot in height by two feet in diameter, laid out in regular rows, at equal distances apart, having main and cross streets intervening by regular blocks, covering a space of ground one mile wide by two miles long, and so arranged and built by these curious and remarkable animals of the plains known as prairie dogs. Each of these hills or houses has an opening at the top leading into a subterranean channel that connects with other channels from neighboring houses, and it is natural to infer that, unless the prairie dogs have been unduly Mormonized, they jointly occupy this homes by pairs, male and female, and when they make their visits, they pass, as do all honest people, in open daylight along their streets, and go chirping their greeting from house to house in all the pride and circumstances of a glorious prairie dogship. When they are attacked they descend suddenly down the opening in the roof of their houses, and in an excited and noisy manner hasten through the subterranean passages, and thus alarm the whole city, which, under the discretion and management of its older and official inhabitants, at once congregate for an out side attack en masse. Then woe to the luckless and impudent offender against the peace of the city; he he antelope, wolf or buffalo the frightful noise and daring attack of the combined force will necessitate an immediate and precipitate flight, or as instant and ignominious death of the intruder.

The prairie dog, in color and shape of the largest fox squirrel, but twice its size, and with a plain caudal appendage, is a master mechanic; likes an organized and regular system of improvements; keeps the the peace bravely; attends to his own business; lives on prickly pear roots and buffalo grass; is always in good plump condition; is quite proud of its domicil and takes perfect delight in jumping upon its roof; setting like a kangaroo on its hind legs and barking vociferously at the passengers on every train that passes through the canine city of at least 1,000 inhabitants.

The skunk and rattlesnake frequently occupy the same house with the prairie dog; the former as a welcome guest, but the latter as an unwelcome intruder. Still no very great effort is made to drive his snakeship away. Hence, it is to be inferred that rattlesnakes are no great enemies of the prairie dog; not like Indians and some "pale faces" who take particular pride in devouring the sweet meat of their dogships with a hearty relish.

Prairie dog villages are numerous along the Laramie plains, but the one I have just described is the largest and most remarkable city along the entire line, well worthy a visit, provided the visitor don't go too close.—*Chicago Times.*

"A FULL HAND'S GOOD."—The good old times are not gone forever. Here is an incident: On the recent trip of a Mississippi steamboat, the clerk had allotted the last state-room, and was about to close his office, when he was astonished by the apparition of a tall Missourian, who exclaimed: "I say, stranger, I want one of them chambers." "Sorry, sir," said the official blandly, "but our state rooms are all taken." "The d—l they are!" responded Missouri; "I've paid my fare, an' I want one of them chambers." "Allow me to see your ticket," said the still pol te clerk. Putting his hand to the back of his neck, the passenger pulled out a ten inch bowie knife, and driving it quivering into the counter, said: "I'm from Pike county, young feller, and that's my ticket. I want one of them chambers." Before the steel had ceased to vibrate the prompt clerk quietly thrust a loaded and capped six shooter under Pike's nose, and coolly answered: "I've only got 'six chambers,' and you see they are all full." The Missourian edged out of "range," and putting up his "tooth pick," ejaculated: "A full hand's good, by——"

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,999,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all these incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

Valuable Property for Sale in Raleigh and Wake County.

PURSUANT to a decree of the Court of Equity for this County, I, as Commissioner, will sell at the Court House, to the highest bidder, all of the Real Estate of the late Sarah Stronach, dec'd, on a credit of

One House and Lot, in the City of Raleigh, containing two acres, more or less; said house in fair condition, has six rooms and good basement. On the Lot there is a very fine Well of Water and all necessary out-houses. The fences are nearly all of new and sound timber, and the soil in fine condition. There are quite a number of Shade and Fruit Trees on the premises. Also a Lot containing three-fourths of an acre, more or less, near the above mentioned one. Both Lots are on Hargett Street, just beyond the city Cemetery, and on the direct road to the "State Fair Grounds." Also a Tract of Land about five miles from the City, which is very well timbered, and adjoins the lands of W. E. Pierce and others.

This property will be sold on the 25th day of August A. D. 1869.

Terms made known on day of sale.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, AUGUST 11, 1869.

STRANGE MORALITY.

We have received says the *Standard* of Monday, the following epistle, together with a request to make known its contents:

DERBY, Conn., July 21, 1869.

SIR: The political corruption of our land is well known. As a people we do not love our country as we should. We do not have that pride in, nor that feeling for our flag which other nations have for theirs. Bribery and corruption seem to be linked with politics. This should be checked, otherwise it does not require a prophetic eye to foresee our doom. All other Republics have failed—we last follow. To arrest this downfall of a nation the Order of the Eagle has been established, its object being to instil into the young men of America a high *spirit of honor*, a respect for our country, a love for the flag. To this end it is proposed to organize societies with an oath for members that they will support the Constitution of the United States, vote for the best men irrespective of party, and if ever elected to office never to accept a bribe. The motto is *Dulce inter patrias.*—Branches of this order are to be established, with a system of correspondence, in every city and town throughout the Union, all working together for the common good.—It should be distinctly understood that this is not a secret organization. There are many things that could be attached to keep up the interest—a reading room, or gymnasium, or perhaps a rifle corps.

Will you not aid the good cause by using your influence to organize a branch in your city or town.

For the Constitution and further particulars address,

Yours respectfully,

THOS. L. CORNELL, Prest.

E. SPRAGUE, Sec.

To this proposition the *Standard* answers thus:

"We have complied with the request to make the above public and that is all we can do. We do not believe such a society either practicable or desirable. First, we believe that the "order of the Eagle" if successfully established would be far more corrupt than is now any political party. It would be a centralization of power, which could, and would be used to the great injury of the country. Secondly, it will never do for political parties to become *too* good. If all were lambs we should be badly fitted to cope with the wolves of other nations. Thirdly, a proportionate sprinkling of rascals is indispensable to the well-being of every community, civilized or barbaric. If all were good, to be good would be unworthy of praise. To be good when opposed by evil is meritorious. Thus the Republican party in the latter for preserving its principles untarnished even though contending with such rascals as the sham Democracy. Fifthly, we believe the concern to be a first class humbug gotten up by designing men to serve their own purposes.

For these and other reasons we decline to use our influence to organize a branch in this city. If the originators want "a rifle corps" they must get it without our aid. In fact we don't believe they will be able to "make a rifle here."

"In the comments of the *Standard* we are not left to conjecture in regard to the texture of the proposed organization that meets with such strenuous opposition and peremptory rejection by that paper and those for whom it speaks. In being a political association is no ground of objection, as known, for the *Standard* and the party of which it is the organ in this State are kept alive solely by the political organizations known as 'Union Leagues' and "Heroes of America," and it has for been two years since that paper openly declared that it favored and endorsed these societies. Neither can the *Standard* or its party recal at the eat perpoard, except in so far as it trammels their action in regard to indiscriminative acquisition; for the organization alluded to shuts, bind their members by an oath, to obey the behests of the party, an oath taken with unusual ceremonies, and in the sepulchral glimmer of artificial blue lights which cast a ghastly hue upon the countenances of the secret conclave.

But the *Standard's* Connecticut correspondent hints at a provision to be incorporated into the Constitution of the new organization, "to vote for the best men irrespective of party, and if elected to office, never to accept a bribe." The *Standard* can not stand that. It would be striking at the very vitals of it and its party, and what is most astonishing is, (for even the most depraved have generally enough shame left to prevent them from openly proclaiming their own depravity,) the *Standard* comes out openly before the world and declares its opposition to the organization that requires its members to swear, "never to receive a bribe," and gives its reason for the opposition to be "that a proportionate sprinkling of rascals is necessary to the well being of every community, civilized or barbarious, it will never do" says the *Standard*, "to become too good," that is, too honest to "receive bribes." There must be "some rascals," and therefore, the originators of the scheme must get up their organization "without our (the *Standard's*) aid," plainly indicating that such an organization would seriously interfere with *its vocation*; it leaves itself free to serve its country in the capacity of one of those *necessary evils*, the "rascals."

This is plainly to be inferred from the article quoted above. Whether the declarations are made in "dead earnest" or mere levity, they show the moral animus of the Radical party so far as its accredited organ may be considered as speaking its sentiments. Such sentiments and such declarations fall strangely upon the ears of North Carolinians. They exhibited a new and a strange sort of morality, that our public journals and public men have never been heard shamelessly to avow before we were inoculated with the "progresive civilization" that had its origin in, and drew its moisture from, a climate beyond our latitude.

But that the above epitomised creed embodies the moral, or political code of the *Standard* and its party, is abundantly substantiated by facts and incidents that have marked the history of this party in this State since it has been in power. Witness the almost undisguised acts of public swindling and corruption perpetrated by their legislators and officials in the other branches of our State government, in many of which the proprietor of the *Standard*, whose sentiments that paper is supposed to utter, has been more than suspected of being an active and interested partic pant.

It is useless to enumerate instances and state particular cases; the country remembers them, and will be less likely to lose sight of them, now that the *Standard* has so shamelessly, but at the same time, we must say, so frankly, avowed the creed which governs those who have committed these acts.

MEETING OF CLERKS.

Pursuant to notice, a number of the Superior Court Clerks of the State, met at the Court House in this City, to-day, and organized by the appointment of Maj. J. G. Mann, of New Hanover, Chairman, and E. A. Osborne, of Mecklenburg as Secretary.

The following Clerks were found to be in attendance:

A. Clapp,	of	Guilford.
P. T. Massey,	"	Johnston.
G. W. Flow,	"	Union.
J. A. Long,	"	Alamance, Deputy.
M. O. Sherrill,	"	Catawba.
A. Barnes,	"	Wilson.
G. J. Robinson,	"	Wayne.
J. C. Callahan,	"	Cumberland.
I. E. West,	"	Craven.
J. D. Southerland,	"	Duplin.
W. A. Albright,	"	Alamance.
John Blackburn,	"	Forsyth.
J. C. Mann,	"	New Hanover.
L. C. Johnston,	"	Davidson.
E. A. Osborne,	"	Mecklenburg.
J. N. Bunting,	"	Wake.
W. H. Spencer,	"	Franklin, Deputy.
John McDonald,	"	Cabarrus.
S. T. Petty,	"	Chatham.

The meeting proceeded to the business for which it was called, viz: to the systematizing the work of their office. The following were adopted as rules:

1. Where a transcript is docketed from a county other than that in which the judgment was taken, execution should be issued by the Clerk where said transcript was docketed.

2. That judgment in criminal actions should be entered upon the judgment docket.

3. It devolves upon the Clerk, where a transcript is sent from other County than his own, to send the execution, with money received thereon, to the County in which the original judgment was taken.

On motion, the following were appointed a Committee on "the construction of the tax bill": Messrs. J. E. West, of Craven, M. O. Sherrill, of Catawba, and A. Barnes, of Wilson.

On motion, the Chairman was added to the Committee.

The meeting then took a recess until 3 o'clock.

CONVENTION OF CLERKS.—The Convention met at 3 o'clock, yesterday afternoon, pursuant to adjournment.

The Committee appointed at the morning session, to report on the construction of the fee bill, reported,

That they are of opinion that it is not expedient, at this time, to suggest any alteration of the fee bill. They would recommend, however, that bills of fees for different services be made out by the members of the Convention present, in order to arrive at some uniformity of charges.

The report was received and concurred in.

Bills were accordingly made out for the various services of Clerks, by the members present, and laid before the meeting, showing great diversity. The afternoon was mostly spent in discussing the question of fees.

After considerable discussion of various propositions, the following preamble and resolutions were finally adopted:

WHEREAS, We, Clerks of the Superior Courts of North Carolina, in Convention assembled, believe it to be of great public importance that there be some concert of action among the Clerks of the several counties of the State, Therefore

Resolved, That we form ourselves into a permanent organization, to be known as the "Superior Court Clerks' Association" of North Carolina.

Resolved, That a Committee on permanent organization be appointed to report at our next meeting.

The Chairman appointed Messrs. West, Osborne and Barnes, to constitute the Committee.

The Convention then adjourned, subject to the call of the President.

MERCHANTS INDEPENDENT FIRE COMPANY.—This fine organization met at the Court House last night, pursuant to notice—in a body. The bell sounded out the summons for assembling, twice, but, sorry "Independent Merchant" didn't come. There must have been some mistake about it.

The Colored Fire Company No. 1, came and discussed matters pertaining to their organization.

TUCKER HALL.—Sargent and Porter had a full house last night and the night before. Those who attended seemed to be satisfied that they had got their money's worth, and some got more, in the shape of gifts distributed at the end of the exhibition.

General Grant goes from Garrison's to Saratoga, and, as he seems to be on a collecting tour, it is a fair question to ask what he expects to get up there. He "thankfully accepted" fifty acres of Jersey sand land, and as the soil of Saratoga is equally open to manurial efforts, he may take fifty acres more in that region. Perhaps the squaws who infest Saratoga with their bead-work and baskets, and who are notoriously liberal, may give him something—and Grant is ready to take anything. Prepare your presents, Presidents with eight or ten pockets and a bag and basket for extras are not around every day. Saratoga should make ready.—*N. Y. World.*

TARBORO—THE EDGECOMBE COTTON FIELDS—THE RECONSTRUCTED FARMER—TARBORO SOUTHERNER—GOVERNOR CLARK—THE STATE HOUSE vs. THE LUNATIC ASYLUM, &c.

MEBANEVILLE, N. C., Aug 6, 1869.

A ten hours ride on one of the last days of July landed me in Tarboro, a town unsurpassed in beauty, wealth and hospitality; a few hours more found me out *in the cotton fields*, and such a splendid sight as these Edgecombe cotton fields it is a rare thing to see. To me the most depressing feature of the degradation of the south is not the bayonet or the negro voter, or the negro Constitution or a debased Judiciary, but it is the frown of the Almighty upon our Agriculture. It is that, since the war, "the heavens have been as brass and the earth as iron" and that the fields have not yielded their increase. God's curse has seemed to rest upon us in all our efforts at rebuilding our fortunes. *This* has been more depressing than all our other misfortunes. With these feelings I left the parched hills of Orange, and the transition to the Edgecombe cotton fields was like life from the dead. In Edgecombe everything is prosperity, everything is energy, everything is hope. The cotton is magnificent, much of it as high as one's shoulders and with such a display of squares and bolls as the oldest farmer has never seen before. We counted over 150 and heard of 175 on a single stalk; most of the planters confidently expect a bale per acre, and this is enough for anybody.

These same planters are thoroughly awake, and thoroughly in earnest, they believe in cotton, and they believe that it takes brains, pains, and manure, to make it. In Capt. R. C. Brown's cotton fields I noticed but *two blades of grass*, the cotton touched my chin, and *every stalk was manured with home made compost*. I visited Col. Cromwell's farm and found it in the highest state of cultivation. His cotton promises at least a bale per acre, and his swamp land corn, acre upon acre, will will yield 9 to 10 barrels of corn. Capt. Dancy, of the Reconstructed Farmer, rode me over his splendid place, and after seeing his farm, I was not surprised that the "Reconstructed Farmer" is taking such a hold upon the people of that section, edited, as it is, by men who are not only gentle men of the highest type, but who, as practical and successful farmers, can show corn and cotton that challenge comparison with any in the country. Under such influence and with such examples, the Edgecombe farmers are thoroughly awake. They use brains in their farming—they use pains in their farming, and they use manure in their farming, and, as a natural consequence, they have made Edgecombe the first county in the State. Their prosperity reminded me of those glorious old days of the past, the recollection of which sometimes, even now, "Comes in *this* night-time *of sorrow* and care
And brings back the *features* that *joy* used to wear."

But my five days passed rapidly away.—A peep into the sanctum of the editors of the Tarboro' *Southerner*, which paper is one of the regular institutions of Edgecombe, another peep into the sanctum of Messrs. Thigpen & Dancy, of the *Farmer*, a talk about our school and college days with Orren and Donald Williams, Gaston Lewis, Frank Wilkinson and Fred Phillips, (not to mention a glass of native wine with Fred Phillips's elegant and accomplished wife)—tea with Gov. Clark, (*what ho!*) who has the handsomest place in Eastern North Carolina, and whose library, besides many other things of the greatest interest, contains the most valuable material for a history of N. C. to be found anywhere, a chat with my genial host, Capt. R. C. Brown, of the old 44th; he and I "fought, bled" and *did not* "die" together all over Eastern North Carolina and Virginia,—and, before the train left in the morning, a ride with Capt. Dancy over his splendid farm—these things covered the last day of my stay, and soon the whistle blew, and I was whirling along with many regrets at leaving so delightful a place, and so genial and hospitable a people.

One more incident and I am done: As we neared Raleigh a jaded, shabby looking, New Hampshire Yankee, passing to the Asylum, asked if that was the *State House*. On being informed of his mistake, he remarked: "Well, I guess I did not miss it far, for I don't see much difference between your State House and a Lunatic Asylum."

STATE NEWS.

YADKIN COUNTY.—A correspondent from Yadkin states that that county is emerging from Radical rule. The Conservatives "divided to conquer," and have elected about half the township officers, and have an aggregate majority in the County of 750. The writer says, "A subscription of $40,000 to the Valley Railroad, by the county, was ratified by a majority of about 150. Our people are determined to open commercial communication with the outside world. The line from Statesville to the Virginia Road, known as the "Saltworks and Plaister Banks Road," is now being surveyed. The Road is very popular with our people, and though it has not received the promise of a dollar from the State, yet such is the confidence of our people in its President, Col. Wm. Johnston, of Charlotte, whose energy and persistance have Leeto lore surmounted all obstacles in Railroading, that they will subscribe to the full extent of their means. The road has become a public necessity, and an important link in the line from Augusta to Washington and Baltimore, and will doubtless, if necessary to its completion, attract capital from abroad also." When the whole thing we will let you hear from us, in the meantime, remain yours,

THE PENALTY OF NOTORIETY.

Mrs. Lewis, Ida's mother, informed us, when we paid our respects to the lassie of Lime Rock, a day or two since, that within the last month between 3,000 or 4,000 persons have visited their home. She also adds that it took so much of her time as to hardly allow her to do her housework, and said: "I love my bed too well to get up early in the morning and I lay almost in 5, or, I might do a good deal before they come." Some of the city bred ladies appeared a little amused at Mrs. Lewis' idea of early rising, and wondered at what hour the good lady would rise if she did not love her bed so well. Miss Ida expressed much indignation at the stories the newspapers are constantly telling in regard to her presents, nearly all of which are untrue. Many articles, which it has been said she received, she has never heard of except through the papers. In speaking of her pictures, she remarked: "That picture in *Harper's* is awful; I cannot bear to look at it." Her marriage, which was to have taken place this month, has been put off a year, as has also that of her sister, who is to marry a brother of Ida's betrothed. The sister is of a very retiring nature, never showing herself to visitors, but remaining all the time in the upper party of the house. She is considered very handsome, but unlike Ida, is very timid on the water. Mr. Frisk's boat house is completed and is a neat little affair. A gold medal is shortly to be sent to Ida from a humane society in London.

GENERAL NEWS.

Samuel Hilderbrand, Esq., has been in St. Louis on a visit to his friends. He has moulded a ball for Jim McNiel, who murdered thirteen citizens in cold blood at Palmyra, Marion county, and now no company will insure the latter's life.

The British parliament is going to establish a uniform marriage law for the United Kingdom. It will be a good thing provided it does not exact too much of the parties.

At a laboring men's Convention recently held in Virginia City, Nevada, resolutions were passed declaring that "the importation of Asiatics and their employment in the mines, or other fields of labor, must be discontinued, or it will bring on an "irrepressible conflict" likely to end in bloodshed and ruin."

The side of a beef recently slaughtered in Texas measured 17 feet in length by 12 in width, and weighed when green 263 pounds. The animal weighed 3,717 pounds.

A dispatch from Boston to Pomeroy's New York Democrat says that on Friday night Fredrick Douglass, *Jr.*, son of Fred. Douglass, led to the altar the "accomplished daughter of Professor A. Molyneux Heatt, of Harvard University." There was a grand reception in the evening.

An illiterate farmer in Indiana, whose house was surrounded by water and nearly afloat in the recent freshet, put up a sign on the front door, "For Sale."

A Dublin professor has lately analyzed the milk of the sow, and found it contained 50 per cent more nutriment than cows' milk; but it is not easy to get, sows not being very susceptible to coaxing.

England has ordered men-of-war to Japan in consideration of the bad treatment to which foreigners and subjects at Yokohama and other Japanese ports. England's men-of-war policy generally secures protection for her citizens.

Charles H. Loomis, a quiet intelligent colored man, who hails originally from Fredericksburg, Va., and who has been acting in the capacity of barber to President Grant, and who performed the same service for King Andy, has been appointed to a clerkship in the Third Auditor's office.

Randolph Poole, employed at Bailey's saw mill at Mansfield, Pa., while assisting in lifting some lumber over a large circular saw, was thrown against it in such manner that his head was sawed open from the top to the clap or throat. Both arms were also sawed off, and one of them was cut in two or three pieces. He was nineteen years of age. A letter was found in his pocket written the day before he was killed, requesting his father to send him some money to return home.

Miss Nabby Joy, recently deceased in Boston, made the following public bequests: To the Association for the Relief of Aged and Indigent Females, $5,000; Provident Association, $5,000; Female Orphan Asylum, $5,940; Fatherless and Widows Society, $5,000; Children's Friend Society, $3,000. The Boston Athenæum receives a statue of a Carthaginian girl, by Greenough, and a statue of a Greek girl, by Wolf.

Ben. Hardin, Jr., grandson of the gentleman of that name who was called the butcher knife by John Randolph, on account of the roughness and causticity of his wit, has made his debut into public life as a member of the Legislature of Kentucky.

Connecticut, which has as good a common school system as there is in the United States, now virtually compels children to avail themselves of its advantages. The last General Assembly passed a law which requires three months schooling each year as the legal condition of employing minors under fourteen years of age. If any manufacturer or other person shall hire a minor contrary to the provision of the law, he forfeits $100 to the State treasury for each offence. The schools of the State are free to all, and now the poorest people are compelled to educate their children, since their employment is absolutely conditional upon such education. It is noted that the manufacturers throughout the State cordially approved of the new law, and only a few laboring men oppose it.

Olive Logan compliments Mrs. Grant for not wearing a low-necked dress like "the shamefully immodest women about her."

The negro Incendiary who burned half a town in Tennessee has been acquitted by a Radical circuit court.

Eugene, Oregon, has an ordinance for the punishment of any person "lying drunk across the sidewalk." A man was recently arrested for the offence, but was discharged by the intelligent magistrate because the testimony went to show that he was lying along the sidewalk in a longitudinal direction.

A colored woman of the town was crowned as the Goddess of Liberty at a Radical barbecue in Alabama last week.

SUICIDE AT A DEATH BED.—Michael Smith, a plasterer, of Terre Haute, Ind., shot himself in that city on Tuesday, at the bedside of his brother, who had died of congestion of the brain. He left a letter saying, "Bury us together."

One of the Quaker Indian agents writes home that he "has not seen a handsome Indian woman yet." Is that what he went out to see?

EX-SENATOR TURNED COLLEGE PROFESSOR.—Ex Senator Lafayette S. Foster, of Connecticut, who was for several years presiding officer of the United States Senate, has accepted the position of professor of the Yale Law School, to fill the place made vacant by the death of ex-Governor Dutton.

During his visit to San Francisco, old Ben Wade was asked out to dinner, to meet Mayor McCoppin and others, and at the table was placed at the Mayor's right. The subject of Chinese immigration and suffrage came up. Wade, in his "bluff" manner, blurted out to the man next to him: "Well, why shouldn't the Chinese come here and have all the rights and privileges? They are a d—d sight better than the Irish!" Mr. McCoppin, of course, had too much respect for his host to resent this insult in a violent manner; but he arose and left the table. After he had left, a gentleman said to Wade: "Perhaps you were not aware, when you spoke, that the Mayor is an Irishman by birth!" "I don't care if he is," was the reply; "I am ready to uphold all I said."

Valuable Real Estate in Greene County, North Carolina.

DESIROUS of changing my residence, I offer for sale my plantation, known as the

"STREETER FARM."

It contains 1,900 acres, 1,200 of which are cleared, the remainder is well timbered, with Pine, Oak and Hickory. The plantation is under good fence. Marl and Swamp Muck, for composting, INEXHAUSTIBLE. This is justly regarded as one of the finest Cotton Farms in North Carolina.

There is on the premises a large, commodious Dwelling House, which is being repaired and refitted, together with all necessary out-buildings, including cabins for laborers.

I will also sell with the land aforesaid, all my Mules, Horses and other stock; farming implements, as well as household and kitchen furniture.

This is a rare opportunity for any one wishing to purchase a first-class Plantation in the South, with everything deemed necessary for the immediate commencement of farming operations.

Terms reasonable. Those wishing to purchase can apply, for further information, to my Attorney, G. W. Johnston, Greenville, N. C., or to the undersigned.

Mrs. VIRGINIA WHITEHEAD,

SPARKLING CATAWBA SPRINGS,

CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.

Being situated in the north-western part of the State, in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.

The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility dyspepsia, rheumatism, &c.

The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.

Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.

FINE BATH HOUSES, for Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.

A GOOD BAND OF MUSIC

Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. J. N. Carter, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.

As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:

BOARD:

For one single month,	$50 00
For two or more months, $40 per month, or at that rate.	
Per week,	15 00
Per day,	2 50

Children under ten years of age and colored servants, half price. No charge for infants or children under two years of age.

LOCAL DEPARTMENT.

WEDNESDAY, AUGUST 11, 1869.

☞ TITUS N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

THE weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, Tuesday, August 10th:

9 A. M., 73. 3 P. M., 82.
12 M., 76.

NEW ADVERTISEMENT.—We direct especial attention to the advertisement of the Medical Department of the Washington University at Baltimore, M. D.

QUITE ILL.—We regret to learn that Prof. Royall, of Wake Forest College, is lying quite ill.

APOLOGETIC.—We hope our readers will make allowance for any shortcoming apparent in the present issue, as the change in time of going to press necessarily creates some confusion in our labors in making up the paper.

EDUCATIONAL.—We learn that the Fall term of Trinity College commences with a large increase of students. Nothing like it has been seen since the war. Trinity is becoming a power in the land.

WARREN FEMALE COLLEGE.—We learn from a friend that the young ladies have already begun to come in, in advance of the beginning of the session, to the Warrenton Female College. Some four or five will leave this city for Warrenton during this week and others will follow next week.

IMMIGRATION.—The N. C. Immigration Association, at a recent meeting in Goldsboro', determined to make vigorous efforts to import large numbers of immigrants this Fall.

MELANCHOLY SUICIDE.—We learn that William Jones, whose barn was burned in Orange, week before last, by incendiaries, became insane on account of the loss he sustained, and the consequent trouble of mind, and, while returning from a neighbor's, on Monday last, committed suicide by cutting his throat. He lingered until Friday, but all effort of an experienced physician to save him was vain, and he expired, the victim of the lawlessness of the times.

A PRETTY ANIMAL.—Maj. Blair, of the Yarborough House, has at his stables one of the most beautiful specimens of live horse flesh we have seen for many a day. It is a filly, two years old, and combines as many good points as can generally be found in an animal of that age. We advise admirers of fine horses to go round and take a look at her.

PLEASE EXCUSE US.—We have received a communication from A. M. Noble, Esq., of Selma, Johnston County, in regard to the personal difficulty that has arisen between himself and J. W. Sharp, Esq., of the same place. Last week we inserted a card for Mr. Sharp, in answer to an article that appeared in the *Standard* the day before, under the impression that the matter would be allowed to stop at that point. The difficulty seems to have increased rather than diminished, and we cannot see any good effect that could arise from a newspaper discussion of the grounds of quarrel between the parties; we, therefore, emphatically decline to publish anything more of a personal character from either party.

COMMOTION IN ORANGE.—We learn from a gentleman, who came down the North Carolina Railroad yesterday morning, that on Saturday night last, about midnight, a large number of persons, disguised, thought to be seventy five or a hundred, went to Hillsboro' and forced the little top of the Sheriff to go with them, with the jail keys, and unlock the jail. They then took out the two negroes, who were confined on a charge of burning the barns of Morrow, Miner and Jones, a week or two ago, in Orange, and took them off. What was done with them we have not learned; the negroes came up next morning, one of them only slightly wounded. Our informant did not learn what report the negroes gave of the treatment they received.

On Sunday morning the Sheriff summoned a *posse* and pursued the trail of the band, but, up to Monday afternoon, had not been able to make sufficient discovery to lead to any arrests. They seemed to have departed toward the Chatham line, and a number of disguises were found along the route.

We regret to hear of these lawless proceedings, but they are the legitimate results of the acts and teachings of the Radical party of the State. One secret organization of the sort will beget others, and thus the peace and safety of society are disturbed and broken, by the unlawful outbreaks of Leagues and Ku Klux.

We shall, perhaps, hear more of the affair, and be able to give further particulars to morrow.

THE CAROLINA FARMER, for August is also on our desk. It has an unusually interesting table of contents. The proprietor announces his intention of enlarging the former into a 48 page Agricultural and Family Weekly, at end of the present volume (Nov. 1st.) The subscription price will be only $2.00. Address Wm. H. Bernard, Wilmington, N. C.

THE RECONSTRUCTED FARMER, for August is received, filled with the usual variety of excellent reading matter for the farmer and housekeeper.

ON ACCOUNT of the great number of wonderful cures of *obstinate* and *inveterate* cases of SCROFULA, DYSPEPSIA, LIVER DISEASE, KIDNEY AFFECTIONS, GENERAL BAD HEALTH, &c., made by the *celebrated* "KOSMOS," it has won the *one able reputation* of being the *best* and *most popular* medicine *ever discovered*. It is daily prescribed by physicians, and recommended by many thousands of our best citizens. For sale by Druggists and Merchants everywhere.

THE MYSTERY SOLVED.

THE times are pregnant with startling events; old isms, theories, and fallacies are fast disappearing beneath the gigantic wheels of progress and human development. Change is written with the iron finger of time, upon all matter, seen and unseen, material and spiritual. The mighty, omnipotent power that fashioned the stupendous orbs that revolve in the immensity of space, created all things in wisdom and purity. The majestic ocean, the deep blue sea, the beautiful earth and all things therein contained were planned and created by virtue of that universal law of harmony, whose power holds sway over all. Intelligence is manifested in all created things, both great and small—the tiny insect, the beautiful butterfly, and God-like man, are each endowed according to their kind, with that instinct or intelligence ordained by Him who "doeth all things well."

Wisdom, justice, and love are the three great standard bearers whose sumptuous hands mete out to each individuality the measure of Divine, universal law, designed by that mighty Mind, who fashioned alike noble man in his own image and all lesser created things. The beauties and wonders of nature never cease to the progressive human mind. Eternal progress is written with the unerring finger of Deity upon all. The theme of human life is laden with sweet incense to all who, like angels of mercy and goodness, are ever busy, ever ready to devise means for the alleviation of human woe and the prolongation of life. The unceasing march of individual and national progress is alone due to the bold and fearless thinkers and actors upon the stage of mundane life. The stern exigencies that confront and impend the gigantic minds of all the countries cannot awe or swerve them in the path of duty and power. Disease and death now hold carnival throughout the land; suffering humanity calls loudly for the "Balm of Gilead," whose subtle, mystic power can heal and save from wreck and ruin. A saving and skillful hand may be found ready to administer to the suffering at all times in PROF. HAMILTON, at his old medical emporium where thousands, from all countries and climes, have received the healing balm for every ill.

In *Harper's Monthly Magazine* for February, 1868, may be found a life of PROF. R. LEONIDAS HAMILTON, M. D., whose discoveries in reference to

LIVER, LUNG AND BLOOD DISEASES

are now attracting the attention of the whole medical world, and whose success is carrying joy and restored health to thousands.

His well-attested cases of liver diseases, lung diseases, blood diseases, and diseases of the kidneys, bladder, spine, stomach, and other organs, are now well known all over the United States and Canada, the West Indies, Europe, Mexico, Sandwich Islands, and in many of the commercial and missionary settlements in every part of the world.

For the benefit of the sick who may wish to know positively when they have derangements of the Liver of more or less severity, a combination of the usual symptoms found in such cases will be found below:

SYMPTOMS OF LIVER COMPLAINT.

A sallow or yellow color of the skin, or yellowish brown spots on the face and other parts of the body; dulness and drowsiness, with frequent headache; bitter or bad taste in the mouth, dryness of the throat, and internal heat; palpitation of the heart; in many cases a dry, teasing cough, with sore throat; unsteady appetite; sour stomach, with a rising of the food and choking sensation in the throat; sickness and vomiting; distress, pain, fullness, or a bloated or full feeling about the stomach and sides, which is often attended with pains and tenderness; aggravating pains in the sides, back, or breast, and about the shoulders; colic pain and soreness through the bowels with heat; constipation of the bowels, *alternating with frequent attacks of* diarrhœa; pile; flatulence, nervousness, coldness of the extremities; rush of blood to the head, with symptoms of apoplexy; heaviness of the eyelids; unsteady at night; cold chills, alternately with hot flashes, with dullness, low spirits, insensibility, and gloomy forebodings, and with ladies, female weakness and irregularities.

DISEASES CAUSED BY LIVER COMPLAINT.

The Human System, the most perfect of all the works of the Creator, is so constituted that, to be entirely healthy, it must throw off the waste, worn-out, and poisonous materials as fast as it takes on new materials from our food and drink. The food is assimilated and made into nourishing and healthy blood principally through the offices of the stomach, liver and lungs. The worn-out materials are mostly excreted by the liver, lungs, and kidneys; but all medical men have heretofore failed to recognize the vast importance of the liver as a blood purifier and exciting organ. The most learned German physiologists, who base their assertions upon actual experiments only, state that the amount of SILK which should be manufactured by the liver and poured into the intestines each day is two and one-half pounds. All persons interested to know this fact and the experiments to prove it, may consult *Verdauungs saefte und Stoffwechsel*, Leipzig, 1858, or they may see a resume of these facts in Prof. Dalton's Physiology.

Remember one thing more: The bile is something more than the natural physic of the bowels as has heretofore been thought by eminent medical men. The bile is mostly made up of the waste matter of the blood—effete, worn-out, and injurious materials. If the liver does not make this bile, and pour it into the intestines, daily, it remains in the blood as a poison. It poisons the blood itself, and when carried to the lungs and poisonous matter in the blood, to every organ in the system.

The blood, poisoned with the daily accumulated excess of bile returns from the liver to the heart, and the nerves of the heart are affected, and we have an oppressed feeling at the heart and palpitation, and if this cause is long continued, we get a chronic irritation, undue excitement, and morbid nutrition of the heart, developing many *forms of Heart Disease*.

Just so with the Lungs. The bile-poisoned blood goes from the upper and right cavity of the heart to the lower cavity, and thence directly to the lungs, circulating all through those most delicate organs. The lung tissues are poisoned and irritated and they invite the scrofulous humors of the blood because they are thus irritated. Hence Consumption, which is local scrofula, so defined and proved by *Logal* and all the most scientific authors. The lungs try to oxygenize and purify this blood, and they do it to a great measure, but they are over worked and irritated, and you smell the blood-poison matter in man's foul breath. Catarrh, Bronchitis, Asthma, Nervous Cough, and Consumption itself, are the results. If the Liver had done its duty—made and excreted that bile, the Lungs would not have been diseased.

Just so with the Blood itself. It goes from the lungs back to the upper left cavity of the heart, thence to the lower cavity, and thence through the arteries and capillaries to every organ and tissue of the system. Among the most important of those organs are the kidneys, furnishing the urinary secretion a most important secretion. But the kidneys themselves are irritated and congested by the presence of the bile-poisoned blood, and they become diseased. Every person who has had a liver disease knows that the urine is scanty, high colored, and loaded with red deposits, or tissue, or other diseased products. Hence, disease not only of the kidneys, but also of the bladder.

But this is not all—far from it. The poisonous blood goes to the BRAIN, and affects the great electrical centre of all vitality; and the brain, stimulated by unhealthy blood, cannot perform its office healthfully. The person has dulness, headache, incapacity to keep his mind on a subject, cannot remember, has a crowded and dizzy feeling, is sleepy, becomes nervous, gloomy, easily irritated, and often has a bilious or neuralgic headache.

And the blood itself becomes diseased, as it forms the sweat upon the surface of the skin, it is so irritating and poisonous that the person has discovered brown spots, pimples, blotches, and other eruptions, sores, boils, carbuncles, and other scrofula tumors.

Disease of the Liver itself is the most common of all diseases. The sudden changes of the New England climate, the malarial influence of the West, and the heat also of the South, as well as the dissolute habits of the people of this country, and other causes, all tend to develope the Liver disease, in some of the varied forms, throughout the United States. This is true of both man and beast, as every butcher knows that he finds the livers of cattle, sheep, and swine diseased ten times where he finds any other organ diseased once. Almost every person he inquires at some time, & some are constantly bilious. It may be mere congestion of the Liver, and torpidity of its function, or this may result in some structural organic affection. But the Liver can never be diseased without affecting the stomach, bowels, and the other organs we have spoken of, and costiveness, piles, dropsy, diarrhœa and impoverished blood are among the necessary results.

CHRONIC DISEASES.

Prof. Hamilton will also inform the afflicted, that having been written to by thousands of patients, his office has become the greatest centre for the treatment of novel, interesting and peculiar cases of any place in the world. No hospital in Europe or America has one-tenth the number of singular and remarkable cases as are presented, either personally or by letter, at No. 546, Broadway. It is, indeed, an EMPORIUM OF CLINICAL MEDICINE. Among the thousands of cases arising from diseases of the LIVER, LUNGS, and Blood, which he treats, the following receive a prominent and most successful attention: Sick and Bilious Headache, Nervous and Neuralgic Headache, Chronic Diarrhœa and Dysentery, Costiveness and Piles, Pimples, Eruptions and Brown Skin, Dropsy and Diseases of the Kidneys, Cottean poison of the Blood, Scrofula in all its forms, Spinal Irritation, Salt Rheum, and Erysipelas, Cancer, Asthma, Epileptic Fits, Nervous Diseases of the Heart, Diseases of Females, and all diseases arising from Impurities of the Blood, Rheumatism, Catarrh and Throat Diseases, etc., etc.

SYNOPSIS.

For the greater convenience of those wishing to write me about their diseases, I insert the following which embraces nearly all that I require to know in most cases: Have you constipation of the bowels? Have you attacks of Diarrhœa? Have you pains in the back, sides, or shoulders? Have you pain or tenderness about the stomach? Have you a dry, teasing cough? Have you saltow or yellow skin? Have you brown spots on your face or any part of your body? Have you a headache? Are you dull, heavy, or sleepy? Have you a bitter or bad taste in the mouth? Have you an irrition or dryness in the throat? Have you palpatation of the heart? Have you cold chills or hot flashes? Is your appetite unsteady? Is your stomach sour? Do you raise or spit up your food? Have you any choking spells? Are you troubled with sickness and vomiting? Do you feel bloated about the stomach? Have you a tired or sore feeling on rising in the morning? Do you have colic pains? Have you wind in the stomach or bowels? Have you piles or fistula? Have you nervous and all-gone feelings? Have you cold feet and hands? Have you a rush of blood to the head? Have you uneasiness on lying on the side? Have you fainting or epileptic fits? Have you great keenness of spirits? Have you gloomy forebodings?

PLEASE READ THE FOLLOWING, AND SEE WHO ARE CURED.

R. LEONIDAS HAMILTON, M. D.—Dear Sir—Duty prompts me to send a grateful acknowledgment of the astonishing success of your treatment of the following case. For nearly three years I have suffered from Catarrh, Nervous Prostration, Liver Complaint, and Extreme Nervousness, insomuch that life became an intolerable burden, and death was looked for as my only release; physically and mentally broken down, I was utterly unable to do the duties of a minister, and was preparing to retire from the ranks, when providentially, my eyes fell on your advertisement in the New York *Methodist*. I had already traveled far and expended so much in the vain effort to secure a cure, that it was with much reluctance and little hope that I addressed you—Your reply inspired me with hope; your remedies were received and taken, and the result was as marvellous to those who knew my condition as it was gratifying to myself. In three weeks I was again in the pulpit preaching with unusual vigor, and if my services are of any value to the church, it is indebted to you, under God, for their continuance. You may refer to me at any time and I shall be ever pleased to bear testimony to your extraordinary skill.

Yours truly,

REV. JOSEPH JONES,
Saint Joseph, Mich.

CASES OF LIVER COMPLAINT.

It is with much satisfaction that I invite particular attention to the following voluntary statement of the eminent Divine and Missionary, the Rev. A. A. Constantine, recently located in the interior of Africa:

No. 48 ANN STREET, NEW YORK CITY.

DR. R. LEONIDAS HAMILTON: No. 546 Broadway—My Dear Benefactor—A sense of duty impels me to say, that your medicines have done for me what no other physician has been able to do. I have been a sufferer for many years from diseases contracted while laboring as Missionary in Africa. Last fall I was declining fast, and had all the symptoms of quick consumption. I applied to you for help. You remarked—"Before I get through with you, I will make you feel several years younger than you have ever felt since you left Africa." I thought little of THAT as I had often received similar assurances from eminent physicians, both here and in Europe; but in less than two weeks all my symptoms were entirely changed, and my health and strength improved very fast. In a few weeks I found myself in the enjoyment of better health, and able to perform more labor, mental and physical, than at any time since I left Africa. May God bless you and your researches in the great laboratory, and make you his agent in restoring thousands to health.

REV. A. A. CONSTANTINE.

STRONGLY CORROBORATED.

No. 113, HARRISON STREET,
BROOKLYN, N. Y., January 20, 1869.

TO THE AFFLICTED SUFFERERS:

During my labors in publishing and editing a newspaper for many years in this city, and also in the performance of my duty as a clergyman in this and other cities, I have become thoroughly and intimately acquainted with R. Leonidas Hamilton, the justly celebrated Lung, Lung and Blood Physician of this city, whose office is at No. 546, Broadway. The doctor was for many years a regular practising physician, and also for some years a professor in one of our best medical schools, and during such extensive experience he fully realized the inadequacy of the ordinary treatment made use of in all chronic diseases, more especially that class of trouble arising from deranged functions of the liver and the digestive organs. He at once set himself about the study of the class of diseases described to make them a specialty. Laying the vegetable world under tribute, he has made discoveries and compound specifics on sound philosophical principles which have made the most wonderful cures in the annals of medicine. Liver, Blood, Lung and Nervous diseases are now virtually under his control, and yield to the magic, subtle power of his remedies. I myself have seen numbers of persons who have been given up by the hands of death by his power, when the unfortunate sufferers seemed doomed to an early grave, and all other treatment was of no avail. In addition to what I can vouch for personally, I have ample evidence from other clergymen, physicians and eminent men of the highest character, who have also been saved by this wonderful treatment, and who speak in the highest praise and gratitude of Dr. Hamilton as a physician and as a gentleman of honor and integrity. It is but simply stating the positive truth when I say that it is well known throughout this country that where his works are known and the fruits of his skill have been witnessed, he is highly esteemed by the people as the most eminent and remarkable physician in the treatment of chronic diseases of the age. As the result of a long personal and familiar acquaintance with Professor Hamilton, and his unparalleled success as a professional man of the highest order, I frankly express the hope that the sad humanity in every part of our land may avail themselves of his most remarkable skill, and thus share noble blessings so kindly and freely bestowed upon all.

Most Respectfully,

REV. W. D. JACOBS.

THE WORK GOES BRAVELY ON!

ANOTHER CLERGYMAN CURED!!

The eminent divine, Rev. J. W. Hankey, of Athens, Maine, writes:

"My health has so far improved from the effects of your treatment that I am able to resume my pastorship. *Had it not been for your medicine I should not be living now.* To you, with God's blessing, do I owe my worldly existence.—I am a living exponent of the worth of your matchless remedies, and I shall hereafter deem it a part of my religious duty to recommend all suffering with diseases of the Liver or Lungs to speedily apply to you. May God's blessing attend your worthy efforts for the relief of diseased and suffering humanity."

ANOTHER CLERGYMAN HEALED!

BOONTON, N. J.

R. L. HAMILTON, M. D.—Dear Sir—It is with pleasure that I communicate the result of the use of your medicine. When I first visited your office in New York, I could scarcely walk into the office without exhaustion. With all your gentle as a successful physician, I had but little hope that you could cure me. There was nothing strange in this. Four years and four months had passed away, but during that period I had suffered constantly with chronic diarrhœa and piles. I had some of the best physicians, and used everything I heard of that I could procure, but all in vain. Why should I think that you could do me more good than others? But, sir, justice and gratitude compel me to say that after the use of your medicine the result was a complete cure. I cannot expect to be freed from liabilities to attacks of disease any more than other men. I wish I had the voice of seven thunders, and could assemble the sick in the world. I would direct them to you, sir, as one fully competent to heal, and whose generous and noble nature would not allow exhorbitant charges.

Yours truly,

REV. GEORGE H. JONES.

A CLERGYMAN CURED OF REUMATISM.

POLKVILLE, N. J.

PROF R. L. HAMILTON.—Dear Sir.—I have purposely delayed writing in order to give you the results of your remedies. The medicines came to hand in due time, and I commenced using them as instructed, and have persevered. For the first week I could not see much change; the second week there seemed to be a giving away of the disease; and at the end of the third week a decided change for the better was manifest. I am now able to walk about with ease and comfort. I send you my sincere and many thanks and pray that God may bless and preserve your life for many years. I feel that under the blessing of Divine Providence, you have done great things for me.

Yours truly,

REV. ISAAC HUGG.

A CLERGYMAN'S WIFE!

Mrs. Rev. Geo. C. Haddock, of Ripon, Wis., writes:

"The remedies you sent me last spring worked like a charm throughout my entire system. I do not believe I should have lived until the present time had I not used your medicine. It is my sincere prayer that God may bless and spare you many long years to minister to the physical being of diseased humanity. All that I can do to extend your field of labor shall be done earnestly and willingly."

A HARD CASE!

SPINE, KIDNEYS, LIVER AND BLADDER DISEASED.

"DR. HAMILTON.—My best friend and Brother—You have saved my life! This is not only certain to my own apprehension, but all my personal friends who have known my sufferings so long and so well, join in this opinion. From a spinal disease I have suffered for years what no tongue can tell. Besides this disease, I have been afflicted with aggravated affections of the liver and spleen; and my kidneys and bladder have been so diseased that other physicians have tried their skill in vain. I have laid in hospitals for months, and I have again and again consulted the most eminent physicians and surgeons in Boston, New York, Charleston, Cincinnati, Chicago, and other cities, without regard to expense. They were men of learning and great reputation, but in all honesty I must say they did me no good. After trying thoroughly their skill, they have had to acknowledge my case as complicated and hopeless—incurable as they have termed it. In nine weeks you have cured me—made me a new man. I had no hope nor had my friends; but I am now right; I am well; and rejoice that, after eighteen years of suffering, I know what it is to enjoy the blessed, joyous feeling of health, vigor, life, free from pain, and with the power to work, think, and enjoy myself. I offer you this testimonial gladly; I hope it will lead hundreds to you. I know that where of I have testify; and I shall ever take the greatest satisfaction in recommending you to all the afflicted, for to you I owe my life."

RHEUMATISM CURED.

William McNeillis, Eagle Rock, Versage County, Pennsylvania, writes:—

"I return my sincere thanks for having permanently cured me of rheumatism after having suffered severely for about seven years. When I had doctored with other doctors and tried all the patent medicines that I could get with no avail, and was so bad that I could not hardly get out of my house, and part of the time not able to get out of my bed, as I was affected in nearly every joint, I thought I would try you as a last resort. To my great joy, in less than three weeks I was able to go out and jump with the most active man in the place. In one month I was perfectly cured and had gained seventeen pounds; and I never had better health in my life than I have enjoyed for the last six months. May God bless you and your miraculous remedies."

CASES OF ASTHMA.

ALTOS, N. Y.

TO PROF. R. L. HAMILTON:

Dear Doctor—It was between six and seven years I was afflicted with that dire malady the Asthma, and after employing the best medical skill in the country and taking all the patent medicines recommended, without avail or any permanent relief, I began to think there was no cure for it; but noticing an advertisement of yours in one of the New York papers, it was with the greatest reluctance I wrote you as I then expected it would not benefit me, and would be worse than useless. In this I was greatly disappointed, as I had not taken the medicine more than two weeks, before I was able to do light work on the farm. Before this, I could not attend to any business, being completely prostrated and after taking two packages considered myself perfectly cured and my health fully re-established, the bronchial difficulties and all bad symptoms being entirely removed. All this is attributable to your unrivalled medicine, under the Divine sanction, which, I trust, with me, will ever be remembered with gratitude. I cannot close this communication without the expression of my heartfelt thanks for the timely aid you rendered my daughter in Consumption. The efficiency of the medicine in her case has been truly marvellous. That hectic cough and flush in her cheek, with the other consumptive symptoms have entirely left her, and now, after a period of five months she is enjoying good health and is quite robust, so much so that she has engaged to teach school this summer. You are at liberty to show this letter to any similarly afflicted, or publish it as you think proper. Any letter of inquiry I will cheerfully answer. I am, Dear Doctor with many thanks,

Your humble servant,

JOSEPH LITTLE.

IMPORTANT CASE OF EPILEPTIC FITS.

Read the following evidence of what my treatment has done in a case of this disease, hitherto considered incurable:

BUCKHART, ILL.

DR. HAMILTON—My wife was afflicted with fits for ten years, attended with great spinal and nervous debility. She doctored with several physicians, but all to no purpose. I read one of your circulars and was encouraged. I procured your remedies and began my treatment of disease that I determined to try your remedies. Every one in the neighborhood cried "humbug," but, thank God, failed to dissuade us from our purpose. As you know, we sent for some of your remedies, which with the help of God, have completely and permanently cured her. She has not had a fit since her back is strong, and her nervous vitality and strength have returned. As every attack she had was severer than the one preceding, it is reasonable to suppose she could not have lived long but for the timely interference of your wonderful skill. To God be the praise; for so speedily and miraculously have your remedies worked I can but recognize you as an instrument of Divine power in rescuing my dear companion from a terrible death.

JOHN S. SHARP.

CONSUMPTION CAN BE CURED.

SOME MORE GOOD THAN ALL THE PHYSICIANS.

Mrs. Catherine Anderson, of Southampton, Bucks County, Penn., writes—

"Your medicines have worked wonders in my case. Previous to taking your remedies, I had doctored with three different physicians, all of whom pronounced my disease consumption, and incurable. Cod-liver oil and different kinds of syrups were taken in great quantities but to no purpose. I was confined to my bed for six months, coughed continually and raised great quantities of matter. My throat was swelled out nearly even with my chin, and my sufferings were most intense. I had not taken your medicines more than one week before I found great relief; my cough was much loosened, and I breathed with greater freedom and ease. My appetite was better, and I felt that a new life had opened before me. I owe my very existence to your great skill and invaluable remedies."

IN HIS MERCY HE SAVES THE AFFLICTED

Mr. John Lewis, of Zollarsville, Washington County, Pa., writes—

"The medicines you sent me last spring acted like a charm. It relieved me very soon of a deranged state of the liver, stomach and bowels. The marked peculiarity of your remedies is, while they act directly and thoroughly on the diseased organs, they do not depress or debilitate the system like other Liver Remedies I have used. I consider you fully master of your profession; and, from your open, fair way of dealing with me, I deem you an upright, conscientious man, as well as an accomplished physician.

CURED AFTER "LONG YEARS."

DANDRIDGE, Jefferson County, Tenn.

Dear Doctor—It is with great happiness that I take my pen in hand to inform you of the good effects of your truly valuable remedies. I really believe that I would long ere this have been in my grave had it not been for your timely aid.—God only knows the long years of suffering I endured previous to adopting your treatment; and now that I am free from pain, it seems as though a miracle had been wrought. I have recommended several to apply to you, and you may rest assured I will do all I can for you. May God aid you in your praiseworthy efforts in relieving poor diseased mortals.

Ever gratefully yours,

DICY ELLISON.

CASE OF AGGRAVATED STOMACH DIFFICULTY.

Mrs. Mary A. Whitford, of East Florence, N. Y., writes:

"PROF. HAMILTON—My Dear Sir: Your medicines were all promptly received and taken according to directions. Louise is a well girl again. I never expected to see her so well as she is,—She can do a good day's walk, and can walk a mile to Sabbath-school and meeting. She sends her most sincere thanks, and says you have done a 'great thing' for her. You have restored her sinking health in a very short time. We shall be grateful to you as long as we live."

"Takes pleasure in making known the good results"

Mr J H Maulsby, of Columbus, Georgia, writes:

I received your medicine and took as directed. The effect was entirely satisfactory. Have handed out the circulars you sent me, and take great pleasure in making known the good results."

Mrs. Lothea A. Smith, of Evergreen, Avoyelles Parish, La., writes:

"I feel and know that I am gaining rapidly all the time, and I know not how to express my gratitude to you for relieving me of pain and misery. I have no more gloomy forebodings; menses are regular, digesting good; in short, I feel like my former self again. Anything I can do for you, by influencing others to apply, shall be done with earnestness and great pleasure.—Send me some circulars, for I feel that one should be in the hands of every diseased person throughout our impoverished Southern Country."

Raising blood cured in four days.

Mr. L. C. Woodby, of Moulton, Texas, writes:

"For two months previous to taking your medicines I had been coughing up a good deal of blood and matter night and day, and could not lay my head down without this matter would run up in my throat causing a very unpleasant sensation, and requiring a good deal of coughing and spitting before the throat could be cleared. I took your medicines three or four days, when I ceased to cough up blood or matter. I have been gaining ever since. My appetite and strength are being restored, and I consider myself in a fair way to fully recover, though my case for a long time has been regarded as hopeless."

TORRANCE YALABUSHA CO. MISS.

DR. R. L. HAMILTON—*My Dear Sir*: Six months ago, when I read your advertisement in the *Metropolitan Record*, my wife was, and had been for two years, suffering with liver complaint, chills and fever, and other ills so common in our low lands of the South, and was so reduced (having been confined to her bed for nearly a year) that I did not think she could ever recover. She commenced the use of your medicines, and to my surprise began to improve the first week, and has steadily gained until the present time. She is now able to attend to her house-hold duties, and I deem her permanently cured. She is lively and cheerful, and feels that your remedies should find a place in every Southern home. I am also happy to add that your treatment for rheumatism in my own case has been equally as satisfactory. Before using your medicine I had been subject to severe attacks for four years, and, having tried all the different Pain Killer, Liniments &c. &c. I despaired of being cured.

The use of your medicine promptly, and I believe permanently cured me. You can, if you please, make use of this letter, as I feel it my duty to do all in my power at this humbug age to extend the practice of one whom I know to be capable of doing what you have done for me, and have already received several to apply to you, and I shall not rest until I have made you and your wonderful cures known to all the diseased in the country. May God bless your efforts from put forth for the healing of the sick and the afflicted.

Yours truly,

ROBERT E. WILBOURN.

ANOTHER APPEAL TO THE INTRODUCTION.

So well knowing the general custom of the American people to denounce all advertising physicians as humbugs without knowing anything at all in regard to their merits, in addition to the numerous and wonderful testimonials from some of the thousands who have been cured by me, I publish below the names and addresses of a few reliable business men, who know me well as a man of integrity and reliability.

The supervisors will be gentlemen well known and noted for honesty and integrity, who will not be allowed to purchase tickets or own any stock in the Company. The numbers and prizes will be drawn from each wheel by two blind boys and a full report of all numbers drawing prizes will be published in some prominent newspaper immediately after the drawing.

The President of the above Company furnishes the following references:

I am personally acquainted with Capt. Jos. G. Hester, and believe him to be a sober, industrious, enterprising correct man.

A. W. LAWRENCE, General Agent
Brooklyn Life Ins. Company.
Raleigh, N. C., Feb. 20, 1869.

I am, also, personally acquainted with Capt. J. G. Hester, and fully concur with the statements made above by Mr. Lawrence. J. A. JONES,

I cheerfully endorse the foregoing
SEATON GALES,
Sec'y N. C. M. H. ins. Co.
Raleigh, Feb. 23, 1869.

Although I have known Mr Hester, but for a short time, I take pleasure in saying that I have formed a high opinion of his intelligence, enterprise, and capacity for business, and that I have been otherwise favorably impressed by him.

DANIEL R. GOODLOE,
U. S. Marshal.

I entirely concur with Mr. D. R. Goodloe, in the above statement.

N. J. RIDDICK,
Clerk U. S. Circuit Court.
INSANE ASYLUM OF NORTH CAROLINA,
Raleigh, Feb. 24, 1869.

I have known Capt. J. G. Hester, from his infancy. He is a gentleman of integrity, business qualifications and high personal character.

EUGENE GRISSOM,
Physician & Superintendent.

I entirely concur with Dr. Grissom in the above. W. W. HOLDEN.

I have known Capt. Hester for two years and concur in the above. R. W. BEST,
Late Sec'y of State.

We, the undersigned, having been appointed supervisors of the above Company, do certify that we neither own any stock or tickets, nor can we, and we will here state that the drawing will be conducted fairly for all who hold tickets, whether present or not at the drawing. We will publish a full list of all numbers drawing prizes, which will be sent to any one desiring it.

CHAS P. MENDENHALL,
SIDNEY H. ROGERS,
JAMES H. FOOTE,
L. C LATHAM,
Supervisors.

The Age of Progress.

We publish to-day, the first scheme in the sale of Real and Personal Estate—a Company chartered by the last Legislature, with a capital of one hundred and thirty thousand dollars, and with power to increase that amount to five hundred thousand dollars. An examination of the charter satisfies us that the Company is pursuing a legitimate business; they are empowered to "dispose of real and Personal Estate in any mode or form they may deem best," and "all laws, or clauses of laws, coming in conflict with said charter are hereby repealed." This is plain and unmistakable English, and we have no doubt the transactions of the Company will prove beneficial to the property holders of North Carolina. For example: Mr. A. owns a piece of real estate which he wishes to dispose of. He throws it upon the market, and fails to get a bid that would warrant him in making a deed. He then places it in the hands of the North Carolina Real and Personal Estate Agency, at a fair valuation, and the property is sold by chance—the owner gets his price—the Company a fair and reasonable compensation for selling—and some person, for *two dollars* comes in possession of a house and stead, which, under any other circumstances, he would not have owned.

In fact, we do not view the Company as a Lottery—it is what it purports to be, a simple Agency for the sale of property, for its true value, which, otherwise would be sacrificed.

We refer our readers to the advertisement—the splendid real estate offered, and the other rich prizes, amounting in all to THREE THOUSAND AND ONE—and the reader will perceive, by the simple rule of division, that there is one prize to every twenty-four tickets.

The General Agent of the Company has given us a call, and assures us that the success of the Company is no longer a problem. In thirty-five counties through which he has just traveled, he represents the people as being enthusiastic in favor of it—both as to investing, and the placing of property in the hands of the Company for sale. He represents that already, before the first grand drawing has taken place, applications to sell, amounting to half a million dollars, are on file in the Secretary's office.

We learn from the Raleigh papers, that the explanatory drawing which took place in the city of Raleigh, on Saturday last, passed off to the decided satisfaction of a large audience assembled in Tucker Hall.—*Witness & Times.*

One three cent stamp must accompany every order. All tickets will have the seal of the Company and signature of the Secretary.

☞ We refer to any Merchant, Banker or other gentleman of standing in the city of Raleigh.
